

LED LIGHT BULBS

Save Hundreds of Dollars

Cost Savings of LED vs Incandescent over 25,000 hours

	<u>LED (10 Watt)</u>	<u>INCANDESCENT (65 Watt)</u>
Bulb Cost	\$34.90	\$3.90 x 12 Bulbs = \$46.80

NOTE: BR 40-85 Incandescent flood bulbs cost \$3.90 each. It takes 12 bulbs to replace one LED bulb.

Kilowatt cost	\$26.52	\$163.20
----------------------	---------	----------

NOTE: Based on a cost of 8.5 cents per Kilowatt hour over the lifetime of an LED bulb (25,000 hours).

TOTAL COST	\$61.42	\$210.00
-------------------	----------------	-----------------

NOTE: That's a savings of \$148.58 per Bulb! Bulb replacement in multiple locations can save an additional 20% in air conditioning costs.

TOTAL SAVINGS – Over \$145 per bulb
